Mediterraneo X

Turntable

Mediterraneo X

Turntable

★ TFT colour display with touchscreen interface

★ Ultra-precise synchronous 12V motor

★ Massive solid aluminium and POM platter (45mm, 7Kg)

★ High-damping design precisely engineered

★ 33/45 electronic speed control with fine speed adjustments

★ Aluminium, stainless steel, and hardwood walnut plinth

★ Cartridge timer to track playing time

★ Variable torque with easy adjustments

Inspired by our most iconic turntable, Mediterraneo X celebrates its ancestor through an unprecedented mix of technologies, innovative features, and a design created to achieve the highest performance: it's our first turntable ever with a high mass platter, made of Aluminium and POM platter and a 20mm thick solid machined aluminium plinth joining massive hardwood finely machined and 3mm stainless steel platform to increase structure rigidity. An innovative and easy-to-use touchscreen display allows regulating the motor torque controlling the power transmission to enable music genre perfect adapting and check the cartridge timer, designer to track playing time for up to 3 cartridges. Besides Mediterraneo X features high-quality RCA connectors to enjoy the favourite interconnect cables.

FINISHES

● Italian walnut hardwood

OVERVIEW

Turntable

Rigid Turntable Design

Transmission

Belt-driven 70 shores rectified belt in EPDM

Motor

Ultra-precise synchronous 12V

Torque control

Adjustable (5 levels)

Platter bearing

Ceramic 4,3mm ball bearing

Speed control

33 $\frac{1}{3}$ / 45rpm with fine adjustments (pitch control)

Turntable controls

Touchscreen display

Tonearm

Gold Note B-7 Ceramic S.E. with RCA connectors

Dust cover

Removable with hinges (included)

Dimensions

470mm W x 205mm H x 375mm D
